- **Attractivity Barometer findings published to the policy makers and to the public in Suwalki**
- Developed **promotional logo** and the **Visual Identification System (VIS)** of the City of Suwalki

Plans for future

Revitalization of the city

„Let's come back over the Czarna Hańcza river” - Development of land along the Czarna Hańcza river

- The project involves creation of recreation places (walking-cycling paths, small gastronomy etc.) at Czarna Hancza river
- Implementation of the project will improve tourist attractiveness of the city

Revitalization of the centre of Suwalki city

- The enterprise will lead to the development of historic centre and tourist attractiveness of the Suwalki city

Revitalization of post-military areas

- The task will have positive impact of the Suwalki city image and lead to creation of new socio-economic functions for post-military areas.

Revitalization of post-gravel areas

- The enterprise assumes the development of areas located at Staniszewskiego Street (recreation places) and Krzywólka region (motor sports)

Development and implementation of low-emission programme.

- Thermal modernization of public buildings (schools and educational objects)
- Purchase of low-emission busses for public communication
- Expansion and modernization of city heating plant and heating networks
