

# Small town development perspectives

# How do we plan for the future?

- Where are we?
- Where do we want to go?
- How do we make a good process for involvement ?
- What is our identity?
- Attractiveness

# The master plan

We need a plan.....

- The master plan is our managing document and is the main document for a holistic community development.

The aim with the plan, and the process.

The program for the plan.

1. To make a holistic community development in a municipality near Oslo, where the population grows 2% per year.
2. The process must involve the whole municipality and the society so we all together find good solutions for local business, inhabitants and visitors.

# Master plan

## Main tasks

1. Our vision? Where do we want to go?
2. The future for our society – we are building Spydeberg
3. Quality of life and local activities- to make good days
4. Climate and environment– green society
5. Our municipality as a organization – what kind of services do we want to offer.
6. Find out what plans we need.

# The vision

## 1. What do we want with our vision?

Times changes and vision changes

We have had the same vision since 1991.

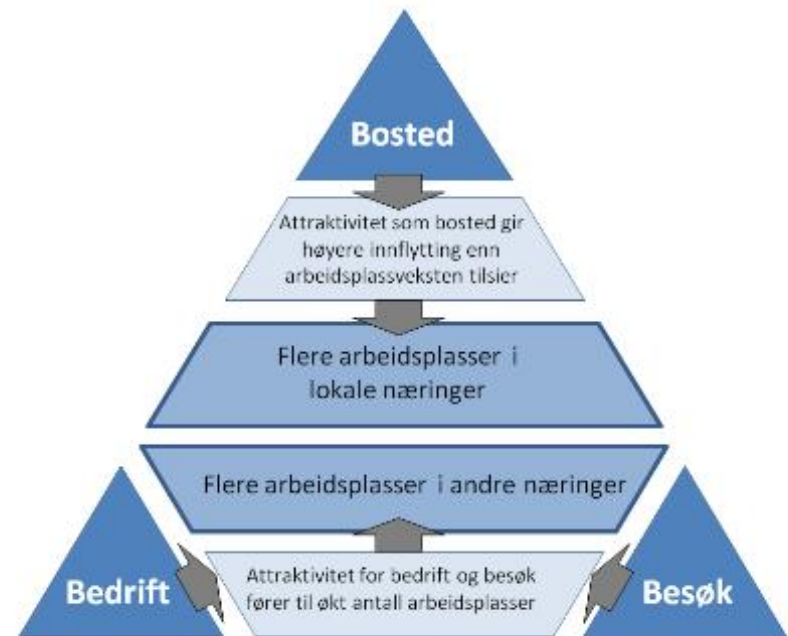

The vision must show the direction for the future. Where di we want do go?

## 2. Development- we are building the society

*How to plan for:*

- Scattered residential
- Hub development
- Business development
- Mass deposition

# 3. Quality of life – Make good days

## *Sub-topics*

- To grow up in Spydeberg
- To make good conditions for organizations and outdoor activities – spare time activities
- Health and care in the future
- Improve public health

## 4. Climate and environment- Green society

- Prevent or reduce pollution
- Prepare for flood and landslides
- Protect our drinking water
- Infrastructure
- Energy
- Cultural heritage

# 5. Our municipality as a organization

What kind of organization do we want to be in the future.

What kind of services do we want to offer?

*Sub-topics*

New reform

Cooperation with other municipalities

# Small towns perspective for the future:

What kind of story do we tell

Take care of the history, but meet the future

Create meeting places with quality.

Infrastructure

Public service

Peoples health

Green areas

Make good projects so investors find us attractive

Develop our centre

Local trade

Near enough.....
