

# Strategy for the Sustainable Development of the City of Suwałki until 2030

ICN meeting, 16.12.2020

# Strategy for the Sustainable Development of the City of Suwałki until 2030

## Main reasons to elaborate a new document

- ✓ changes in socio-economic conditions since 2014
  - ✓ new challenges
- ✓ new financial perspective

# Strategy for the Sustainable Development of the City of Suwałki until 2030

# Strategy for the Sustainable Development of the City of Suwałki until 2030

## Vision

**Suwałki - a city of good life and sustainable development thanks to**

**strong residents**

**modern economy and**

**unique environment**

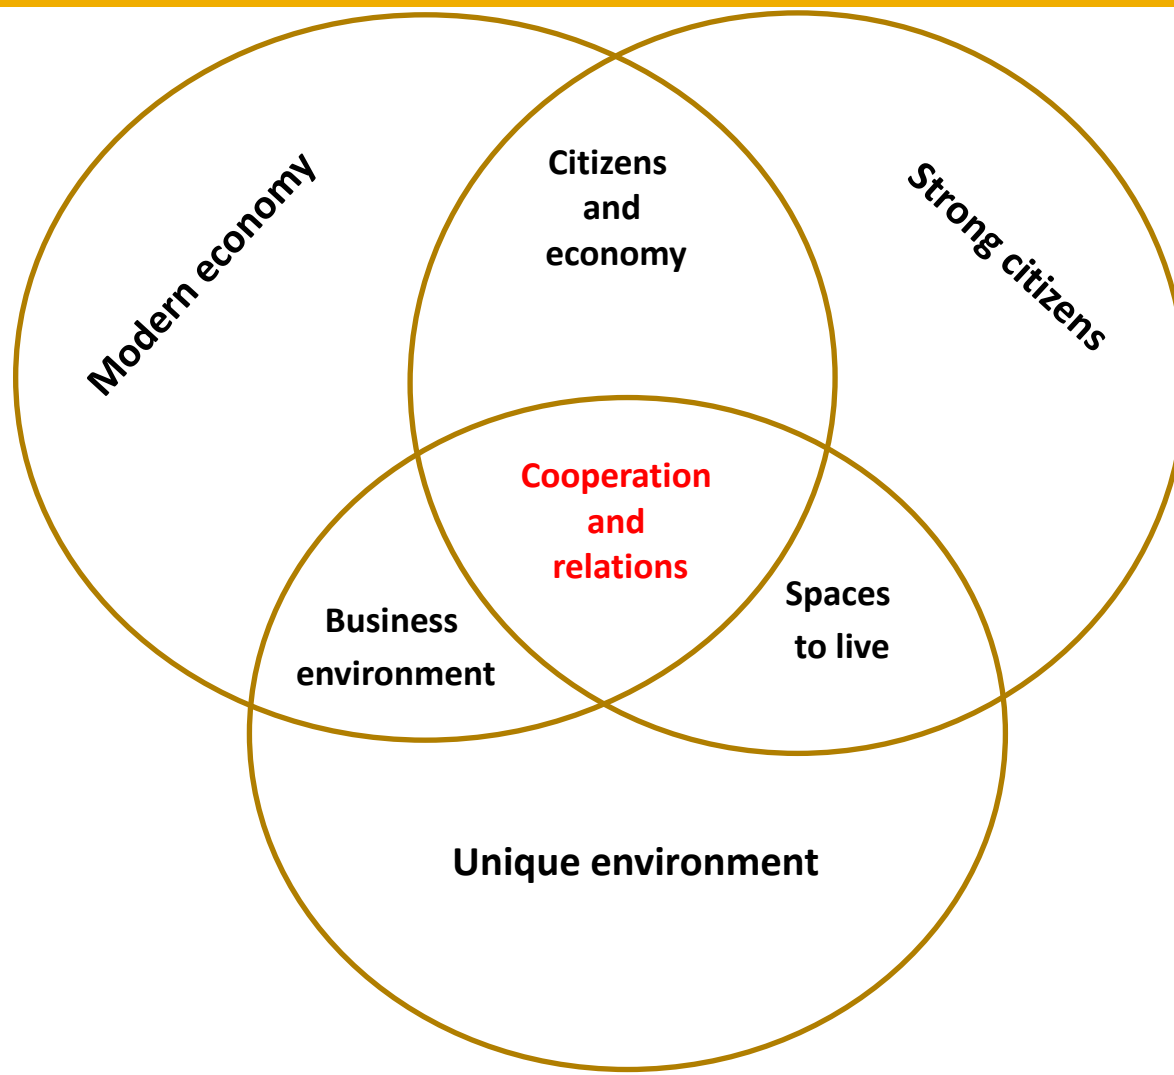

## Strategy for the Sustainable Development of the City of Suwałki until 2030

- **Strong citizens**, strong by their qualifications and competences, creating their own future. Health and physical activity, strong social relations;
- **Modern local economy** – connected into the 4.0 industry, much more innovative than today, based on creative, young citizens, wishing to realize their life plans in Suwałki;
- **Unique environment** – not the natural conditions of the city and its surroundings, but also a socio-economic environment created by networks of relationships built on trust and cooperation.

# Strategy for the Sustainable Development of the City of Suwałki until 2030

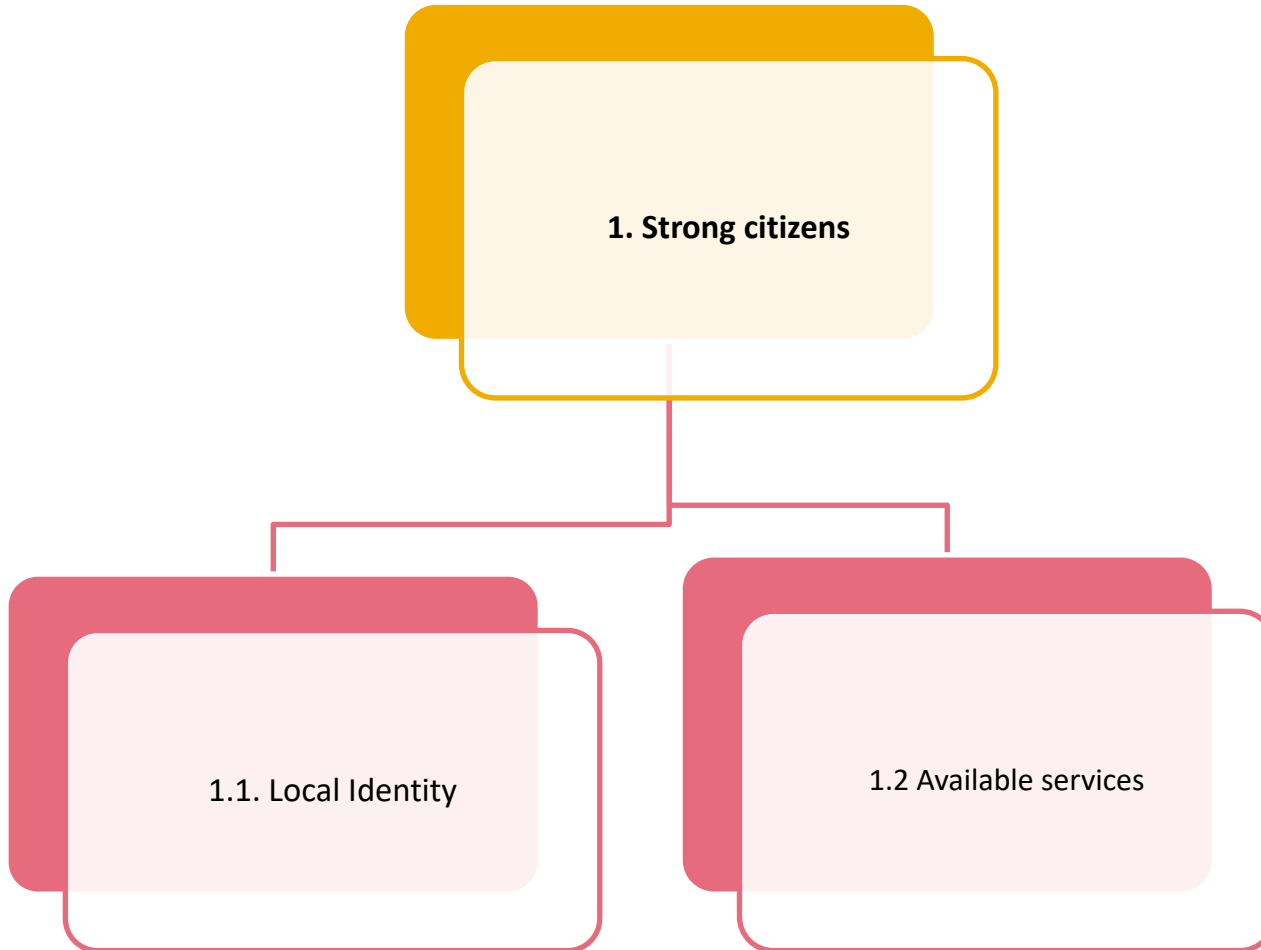

## Strategy for the Sustainable Development of the City of Suwałki until 2030

- **Citizens and Economy** - focuses on the potential of inhabitants in the context of economic development, so the key elements are: structure and resources of the population and the labour market.
- **Business environment** - attention was paid to the issues of Suwałki's attractiveness resulting from the specific location of the city and its spatial resources that can be used by business.
- **Spaces to live** covers the widest range of issues. This is due to the fact that parts of the city, inhabited and used for recreational purposes, are also, especially in the tourist season, spaces that tourists eagerly use. The leisure offer of Suwałki for residents is also - to a large extent, an offer for tourists.
- **Cooperation and relations**. This area concerns both the issues inside the city and the opportunities that appear outside.

# Strategy for the Sustainable Development of the City of Suwałki until 2030
